## Education

CMR College of Engineering and Technology, Hyderabad  
Bachelor of Technology in Electronics and Communication Engineering (Expected Graduation: 2027)

## Technical Skills

Programming Languages: Python, C++  
Web Development: HTML, CSS, JavaScript, React.js, Node.js  
Databases: MySQL, MongoDB  
Tools & Platforms: Git/GitHub, VS Code  
Areas of Interest: Scalable Web Applications, Ads & Analytics Platforms, problem solving ,  
designing web pages

## Projects

### Pay4Skill – Freelancing Web Platform

React.js | Node.js | Express.js | MongoDB

- Built a **full-stack freelancing platform** enabling students to connect with employers for short-term gigs.
- Implemented **secure authentication** (JWT, Google/GitHub/LinkedIn login) .
- Developed **job filtering, analytics dashboard**.
- Designed scalable APIs to manage users, job postings.

### Mana Nivas – Hotel Booking Application

React.js | Node.js | Express.js | MongoDB | TailwindCSS

- Designed and developed a **responsive, mobile-first booking system** with room management, direct booking, and cancellation features.
- Implemented **glassmorphism UI** with smooth animations for a modern experience.

- Integrated **real-time updates** for availability and booking status.

## Responsibilities & Strengths

- Strong foundation in programming and web development.
- Quick learner with the ability to **adapt and scale solutions**.
- Comfortable working in **collaborative, cross-functional environments**.
- Clear communicator in both **technical and non-technical discussions**.
